Academic Probation - The Next Step

Academic Probation - Defined
Students who have attempted at least three full credit equivalents and have a cumulative GPA of less than 1.60 are placed on academic probation.

- You will clear probation, and be placed in Good Standing, when your cumulative GPA rises to 1.6 or above.
- Until this happens, if you have a sessional GPA (based only on the grades in courses taken during a single session) of less than 1.60, you will be suspended.
- If your sessional GPA is 1.6 or above, but your cumulative GPA remains below 1.60, you will remain on Academic Probation, but you are allowed to continue to take courses. In this case, your status is Continued Probation.

What Does Academic Probation Mean?
Academic Probation is a warning signal. It indicates that your performance was below the minimum standard set by the University of Toronto (UofT). It should signal to you that something needs to change. These changes may include:

- Changing your program of study
- Improving your study habits
- Reducing your course load
- Reducing the number of hours you work at your part-time job

When a student is placed on Academic Probation they may continue taking courses at the University of Toronto Scarborough (UTSC) or any of the other UofT campuses.

Policies and Procedures Governing Students on Probation
Students placed on probation are required to take a course load that does not exceed 2.0 full credit equivalents per session.

- Upon notification of probation, students will be allowed to register in a maximum of 2.0 full credit equivalents (4 standard half credit (H) courses). The restriction will be lifted and you may take a regular course load once you have either cleared your probation or you are allowed to continue on probation (because you have achieved a sessional grade point average of at least 1.60). Please note: students who contravene this rule will be removed from ALL current and future session courses.
- While on probation, students must meet with a university service provider to discuss the reasons which led to the probation and to plan strategies to improve academic performance. (A list of appropriate service providers may be viewed on the Registrar’s website at: www.utsc.utoronto.ca/registrar/current_students/probation.
