English (HBA)
Department of English

English Literature explores the diversity of texts produced in the English-speaking world, across historical periods and geographical boundaries. You will engage with new ways of thinking, speaking, and writing about the world and, in so doing, interact with and change that world.

The Specialist program provides an unparalleled opportunity for in-depth and more advanced work in literary studies, while also giving you the room you need to broaden your understanding of the field and explore your interests as widely as possible. The Specialist offers superb preparation for graduate work in English literature; it is also an excellent foundation for a variety of career paths that emphasize critical thinking and communication skills.
