French (HBA)
Department of Language Studies

U of T Scarborough French students will study both the structure and mechanics of the French language, and will also learn practical French for business and everyday use. Studies in French allow for a wide range of interests: French history and culture; the enhancement of practical language skills including translation; the study of how the language is structured and how it evolved and spread; the development of approaches to the teaching of French; and the exploration of the rich literature and cultures of the francophone world.

Complementary Programs: English, Linguistics, Psycholinguistics, English Chinese Translation, Management and International Business, Public Policy, Political Science
