11 AM 12 PM 1 PM 2 PM 3 PM

Co-op Arts & Science

Computer Science, Math and Statistics

International Development Studies (Including Co-op International Development Studies)

Life Sciences and Neuroscience

Management Programs (Including Co-op Management)

Management & International Business

Paramedicine

Psychology, Mental Health Studies and Health Sciences

Social Sciences and Humanities

Visual & Performing Arts, Arts Management and Media, and Journalism

Tours and Enhanced Campus Experiences
11 AM 12 PM 1 PM 2 PM 3 PM

Chemistry and Environmental Science Labs Tour
Faculty and students will take you through the leading-edge lab spaces in the LEED Gold Standard certified Environmental Science and Chemistry Building. Most first-year science students will use the facilities located in this technologically advanced science education and research hub.

Departing from EV Lobby

Paramedicine/Centennial College Tour
Explore Centennial College’s Morningside campus, with visits to the classrooms and labs in which Paramedicine students study. Speak with current students about their experiences and ask our staff questions about the program.

Departing from AA 207

Visual & Performing Arts, Arts Management and Media Tour
This tour will highlight our studio spaces, the Leigha Lee Brown Theatre (our venue that hosts annual student performances) and Gallery 1265 (our studio gallery featuring contemporary student art).

Departing from HW 214

Campus Tours
Tours will depart every 30 minutes from the top of the stairs.
Departing from Meeting Place (MP)

Residence Tours
Tours will depart every 30 minutes from the top of the stairs.
Departing from AA Building Foyer

Toronto Pan Am Sports Centre Tour (TPASC)
Buses will depart every 60 minutes, and a final trip at 3:30pm.

Today’s Schedule

Where to Eat on Campus
Student Centre (SL) Bladen Wing (BW) & Academic Resource Centre (AC) Humanities Wing (HW) Instructional Centre (IC)

Subway
Asian Gourmet
Hero Burger
Treats
INS Market
Hot Dog Cart (outside)

FREE Popcorn!
Tim Hortons
UTSC Bookstore
Booster Juice
Pizza Pasta
Bento Sushi
Bakery & Brunch
La Prep

Statement of Acknowledgement of Traditional Land
We wish to acknowledge this land on which the University of Toronto operates. For thousands of year it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit River. Today, this meeting place is still the home to many Indigenous people from across Turtle island and we are grateful to have the opportunity to work on this land.
Your application is in. It’s time to preview your future.

You’ve just a few steps away from beginning your educational experience, so what’s next? We will send you information about everything from financing your education to enrolling in courses. Keep an eye out for emails and documents on JOIN U of T. To get you started, here’s the answers to some of the most common questions students have after they apply.

When will I get a decision on my application?

We send offers of admission to current Ontario high school students in February, March and May. If you applied by the deadline and haven’t received an admission decision yet, don’t worry! We send out the majority of our offers in March and May. You will have an admission decision by the end of May.

If you applied using the 105 OUAC application form (non-Ontario high school and international applicants), offers are sent throughout the year. Be sure to check your application status through the JOIN U of T portal to make sure that your application.purpose is complete. Notifications are typically sent out 6-8 weeks after your application is complete. If you do receive an offer of admission, don’t forget to accept it! Follow the instructions on JOIN U of T and reply by the deadline outlined in your offer letter.

I accepted my offer; when do I register for courses and pay tuition?

All incoming first-year students register for courses in early July. We will send you information about your course enrolment date and time. The deadline for paying first-year tuition is in mid-August. After you register for your courses in July, your tuition invoice and payment instructions will become available for you to access.

I applied to life sciences, but I’m also interested in studying other subjects. Can I take courses in these other areas too?

You may have decided to study a specific program, but you can actually combine programs at U of T Scarborough to suit your academic interests! Your U of T degree can be built in the following ways:

1. Specialist or 2 Majors or 1 Major + 2 Minors

A Specialist program provides you with an in-depth and focused understanding of a subject area. A specialist program satisfies 2.0-3.0 credits.

A Major program develops a concentrated understanding within an academic field. A major program satisfies 7.0-9.0 credits, and must be combined with another major program or a minor.

A Minor program helps you diversify your academic portfolio to expose you to a subject area and allow you to augment skills from other fields. A Minor program satisfies 4.0-5.0 credits.

Which courses should I take in my first year?

Visit our Program Information Fair today to find out! Representatives from each program can give you your first-year course lists to guide you. After accepting your offer, we encourage you to attend the “Get Started” event — a full-day academic orientation that will help you plan for a successful first year. For more information and to register, visit utsc.utoronto.ca/getstarted.
