The Department of Athletics and Recreation’s programs and activities have been running successfully despite the circumstances we are facing with Covid-19. Being in a unique position located within TPASC but also whereby University policies and guidelines must also be adhered to, programming and activities offered by UTSC may vary from those being offered by the City of Toronto, TPASC Inc. and other facilities. Program implementation may also differ slightly on a Tri-Campus scale as well.

The health and safety of students, staff and the community is our number one priority and therefore, as a department we will continue to support your wellbeing in accordance to Public Health recommendations as well as UTSC health and safety guidelines.

If you have any questions, please contact Sheila John, Assistant Dean, Wellness, Recreation and Sport.
