What we look for is what you want in a colleague.

We accept MAccFin candidates who have a history of academic success and are intent on pursuing one or more professional designations, however that’s where the similarities end. We curate the cohort of colleagues that you will learn with and learn from, and these peers will become key partners in your network. You expect us to admit candidates with a range of professional interests, and we value learning about your co-op, internship and summer job experiences, volunteerism and community engagement, personal interests and accomplishments through our inclusive application process.

Applying is fast and easy, but competitive.
You apply during your 4th year of undergraduate studies or after you’ve earned your degree. However, you’ll need to make your decision quickly if you receive an Offer of Admission as we have a limited number of seats open to students from undergraduate programs across Canada.

Switching schools for a Master’s is made easy.
If you did not complete your undergraduate degree at UTSC, switching schools will mean new colleagues, new professors, new learning spaces, and a new crest on your varsity sweatshirt or water bottle. It might even mean moving to a new city. It’s different for everyone. That’s why we make it easy for you to apply, we keep in touch often after your acceptance, and we work diligently to transition you to MAccFin so you don’t miss a beat in your professional journey and you can keep your momentum.
