Textbook: *Environmental Chemistry* 5th Ed.
by Baird and Cann

Grading:	CHM B20	
2 50-minute tests	2 x 12%	24%
4 assignments*	4 x 10%	40%
Final exam		36%

* the second 2 assignments may be replaced by a project, for students who do better than 78% in test #1 and have > 80% average on the first 2 assignments

Office Hours: Monday 2-3:30 *or by appointment*

If you miss a test or an assignment (without my prior written consent), you will need to provide an official UTSC medical note (or do some really good talking!) in order to avoid a mark of zero.

Cheating on tests and assignments will be dealt with very harshly. Although I do encourage group discussion of how to solve problems, I expect each student to produce an individual assignment to hand in. It is very obvious to the markers when one person has done the work and others have copied it.
