

- Identification of important minerals, rocks types and fossils, as well as drawing conclusions about their implications (in-class lab exercises).
- Visualization and retrieving information about geological features in 2D and 3D by using geological maps and cross-sections.
- Visualizing and development of a better understanding of interpretation of temporal and spatial data (e.g. development of continents through time using stratigraphic columns and geological maps)
- Problem solving skills during hands-on in-class lab exercises
- Real world application of geological concepts and methods during in-class lab exercises and the field trip.
- Developing of teamwork skills during the in-class exercises, in-class lab exercise, as well as a field trip.
- Development of peer and self-assessment skills during teamwork.

Literature - Required: H. Levin, The Earth Through Time, 11th edition, Wiley (course reserve). 10th edition is also suitable, though some page numbers may have changed.

Literature - Also used but not required:

- St. M. Stanley & J.A. Luczaj, Earth System History, 4th edition, Freeman (course reserve)
- Eyles, Ontario Rocks, 2002, Fitzhenry & Whiteside
- A dictionary of earth sciences (course reserve)
- The facts on file – dictionary of earth sciences (course reserve)

Lecture Schedule - Subject to change:

Week	Monday Lecture		Lab	Thursday Lecture		Other
0				September 7, 2017	Intro to course and geological studies	
1	September 11, 2017	Principles of Geology	1) Principles of Geology	September 14, 2017	Sedimentary Rocks	
2	September 18, 2017	Paleontology	2) Sedimentary rocks and paleontology	September 21, 2017	Earth Materials: Rocks and Minerals	Online Quiz 1
3	September 25, 2017	Igneous Rocks	FT Prep (nothing to hand in)	September 28, 2017	Metamorphic Rocks	FT: sat 30, sun 1
4	October 2, 2017	Earth's Interior	3) Minerals and rocks I	October 5, 2017	Plate Tectonics	
Reading Week						
5	October 16, 2017	Plate Tectonics	4) Minerals and rocks II	October 19, 2017	Midterm	
6	October 23, 2017	Hadean	Bellringer	October 26, 2017	Archean	
7	October 30, 2017	Proterozoic	5) Geologic Data and Mapping	November 2, 2017	Origins of Life/Cambrian Explosion	Online quiz 2
8	November 6, 2017	Paleozoic I	6) Structural Geology	November 9, 2017	cancel me/ guest lecture	

9	November 13, 2017	Paleozoic II	7) Age Determinations	November 16, 2017	Mesozoic	
10	November 20, 2017	Cenozoic	8) Stratigraphy	November 23, 2017	Quaternary	
11	November 27, 2017	Geology of Ontario	9) Planet Rocks	November 30, 2017	Geology of Ontario	Online Quiz 3
12	December 4, 2017	Review				

Marking Scheme:

9 in-class exercises/labs (each 4%)	36%
3 Online Quizzes (each 2%)	6%
Field trip	6%
I-Clicker (Lect. Participation)	4%
Bell Ringer (Min., Rock, Fossil ID)	2%
Midterm (in class)	18%
Final Exam (date to be announced)	28%
Total	100%

Lectures and in-class exercises – Group or Individual Work:

ALL students are expected to attend ALL lectures, which include graded in-class exercises.

It is the responsibility of the student to ensure that notes are obtained for any classes missed.

Nine labs during which attendance will be taken and exercise has to be handed in at end of 2 hours. Group and/or individual work. Worth 4 % each of final grade.

i-clicker (Lecture participation) – Individual submission:

i-clickers are mandatory for this class and they will be used for participation marks during the lectures (I-clicker). Total **participation is worth 4% of the final grade** (grade is not based on right answer, but participation). We will start using/testing the I-clickers in the first week. Graded participation will start in the **second week (Lecture 2)**. You can miss up to 20% of the I-clicker participation without losing grades. If your participation is between 80-70% off all lectures, you will get the full 4%. If your participation is between 70 and 50% you will get 2% of the participation mark. If your participation is below 50% no participation marks will be given (0%). **Each student can only use their own clicker! Submitting answers for a fellow student, who is not present during class, is an offence covered under the code of Academic Integrity (see section below)!**

Bell-Ringer Test – Individual Work:

At the end of the term (before the final exam) a Bell Ringer Test will be held in preparation for the final exam. This c. 20 min test will test your mineral, rock and fossil ID skills and is based on the lab samples. Before the Bell Ringer happens, the lab (ESCB 224) will be open to look at the lab samples again.

1-Day Field Trip – Southern Ontario – Group Work:

This field trip is mandatory for all students. A fee for transportation will arise, which we will keep as low as possible.

During the field trip groups of 2-4 students (best 4) will look at the local rock formation, describe and ID these, by filling out a given table. This table will be handed in during the in-class exercise in the week after the field trip (6% of final grade).

Furthermore, we are outdoors and therefore some preparations are needed:

- Be prepared for any kind of weather (sun vs. rain: rain jacket, sun screen, hat)
- Sturdy footwear (at least running shoes, preferably hiking boots) -> **NO open-toed shoes, sandals, or heels!!!**
- Adequate clothing (long pants, layers, rain cloth)
- Safety goggles or light tinted sun glasses
- Daypack with an adequate amount of water and lunch (+ smaller snack)
- If possible small camera, field book (e.g. small notebook), pencil & pen
- See "Intro to field safety" PDF.

Additional required safety equipment (e.g. hard hats, additional safety goggles) will be supplied by the department.

Online Quizzes – Individual Work:

Three online quizzes will be posted (see course schedule) and each quiz is 2 % (6% total) of final grade. Each quiz will consist of roughly 10-15 questions (multiple choice, True/False).

Study Questions – Group or Individual Work:

I will post a set of study questions on each course topic, which should help you to identify the important course information, study for the quizzes and exams, prepare you for the field trip and to keep on top of the material.

Make Your Own Geo-dictionary (MYOGD) – Group or Individual Work:

A file called "Make your Own Geo-dictionary (MYOGD) is a word document which provides you with important terminology and concepts in Geology. This exercise is not graded, therefore is not mandatory to be finished, but finding the definitions (figures etc.) for these terms will help you to prepare for the exams, quizzes, in-class exercises and later courses. As there are many terms new to you, this can be an overwhelming task to do on your own. Best is if you form a group with some of your fellow students to complete the dictionary together. Make sure all of your group mates are on the same page about accuracy and detail. Besides online sources, the appendix of the course textbook, as well as already existing dictionaries for Earth Sciences or Geology (see course reserve) may be useful to find the respective definitions (and figures etc.).

Missed academic work:

If you know that you will miss a deadline then please let me know in advance, as we might be able to work something out. Should you miss a deadline for any term work you will be automatically penalized **10% per day (including weekends)**, if you do not follow the following procedure and receive consideration. Within **one**

week of the missed deadline you must submit a completed **University of Toronto medical certificate** (available on BB in Course Documents) as well as a **letter from you** describing when you fell ill, how it prevented you from making the deadline and when you returned to school as well as your name and student number and the course code. Submit the certificate and the letter the instructor. Carefully following this process will allow us to properly consider you for consideration regarding your late/missed work for EESB15.

Final Examination:

The final examination will be 3 hours, is cumulative (1/3 before midterm, 2/3 after midterm) and will be scheduled by the University and held during the December examination period. The exam will contain multiple choice, true and false and short answer questions. Figures, movies and animations are examinable, as are in-class participation/lab type exercises. The exam will be more heavily focused on post-midterm material. The assigned readings are examinable, the material covered in lecture is weighted more heavily than the readings.

Library Services:

Research Help: University of Toronto Scarborough Library

Staff at the UTSC Library will be happy to help you find the resources you need for your assignments, and learn the research skills you will need for success at university.

Research help is available by phone, e-mail, chat, or in-person in the Library.

For more information, please see the Library's Help Guide for UTSC Students:

http://guides.library.utoronto.ca/utsc_help

Need in-depth or department specific assistance? Contact Sarah Forbes, Liaison Librarian for Physical and Environmental Sciences: <http://uoft.me/smforbes>

Blackboard:

Lecture and lab material will be posted on and Online Quizzes will be done through blackboard. Please check daily for updates. Blackboard: <https://portal.utoronto.ca>

Academic Integrity Statement:

Academic integrity is one of the cornerstones of the University of Toronto. It is critically and important both to maintain our community which honours the values of honesty, trust, respect, fairness and responsibility and to protect you, the students within this community, and the value of the degree towards which you are all working so diligently. According to Section B of the University of Toronto's Code of Behaviour on Academic Matters, which all students are expected to know and respect, it is an offence for students:

- To use someone else's **ideas or words** in their own work without acknowledging that those ideas/words are not their own with a citation and quotation marks, i.e. to commit plagiarism.
- To include false, misleading or concocted **citations** in their work.
- To obtain **unauthorized assistance** on any assignment/exercise/quiz. **This includes the use of i-clicker !!!**
- To provide **unauthorized assistance** to another student. This includes showing another student completed work.
- To submit their own work for credit in **more than one course** without the permission of the instructor.

- To falsify or alter any **documentation** required by the University. This includes, but is not limited to, doctor's notes.
- To use or possess an **unauthorized aid** in any test or exam.

There are other offences covered under the Code, but these are by far the most common. Please respect these rules and the values, which they protect. It is your responsibility to ensure that your work maintains academic integrity. If you have any concerns please see the instructor before a potential problem arises. Please familiarize yourself with the Code (<http://www.governingcouncil.utoronto.ca/policies/behaveac.htm>) and also with the handout "How not to plagiarize", available in the Course Documents section on BB. At the University of Toronto academic dishonesty can result in a *mark of zero, a reduction in final grades, denial of privileges, a monetary fine, failure in the course, suspension, permanent record, a recalling of degrees/diplomas and certificates, or expulsion.*

Accessibility Needs:

The University of Toronto is committed to accessibility. If you require accommodations for a disability, or have any accessibility concerns about the course, the classroom or course materials, please contact Accessibility Services as soon as possible: UTSC campus AccessAbility <http://www.utsc.utoronto.ca/~ability/> or St. George Campus DisAbility disability.services@utoronto.ca or <http://studentlife.utoronto.ca/accessibility>.
